

HAS BEEN MISSING TO ATTACK OUR CHILDREN

Gwinnett Co. School Board Building

Gwinnett Co. Abortion Clinic

Our prayer walk weapons have begun !

"The weapons of our warfare are not carnal (fleshly) but mighty through God to the pulling down of stronghold."

2 Corinthians 10 : 4

The **FACTS** being taught in every public school across our nation since the 1800's has always focused on **WHO, WHEN, HOW, WHAT, WHY, WHERE** in every academic subject. This focus is logical reasoning until the 1900's when "they" (**America's Historical Public School Records Against Truth**) intentionally removed the most important **F-A-C-T**. That was **WHO?** It changed the course of history in our public schools across our nation reaping the consequences ever since. Our nation morality temperature is at a freezing level to legalize and subsidize the killing of 62 million of unborn children since 1973.

Our Gwinnett County School Building has over 700 employees supervising 142 public school with 180,589 students. Along with these are 68 private or Christian schools. Pray that all churches collective in their zip code will be actively be involved in prayer and personally know the principals with their schools. Turning the wave of socialism among our school is massive. Yet all churches united in earnest relentless prayer will turn humanistic mentality to a wave of revival that could empty our jails and prisons.

Faith, Applied, Creation, Truth

WHO created God's Universe? God has no beginning or end. He is the designer and owner of everything. His eternal image and nature starts all.

WHEN did God's earth begin? The FACTS of His Creation spoken "Let there be..." into existence out of nothing is simple and self explanatory in the Bible.

HOW was God's earth made? A detailed account in Genesis's is God's creation story. He formed the atmosphere, divided the continents, every animal, and His highest formation - people in His own image.

WHAT is the ultimate purpose of His creation? To create and multiply the highest of His creation – human beings for dominion over His world.

WHY were we born? to conform our freedom of choice to seek to be molded into His images preparing we stand before Him in His very presence.

WHERE is our destiny after death? Heaven keeps a mindset of a daily spiritual preparation on the brevity of life on earth compared to eternity. Yet, a glorious anticipation to see our Lord and Savior face to face.

Faith, Applied, Crumbling, Theories

WHO created the Universe? To ignore eternity not knowing their eternal Creator, falls to personal doubts and submits to Humanism or Socialism.

WHEN did the earth begin? This fall surrenders to manmade Theory of Evolution. Their speculations "pulled from the air" number into millions of years.

HOW was His earth made? Ignoring who formed all Creation spins off into "happen chance" and theories of evolving without any purpose or meaning.

WHAT is the ultimate purpose of His creation? In a manmade compass minds there are only doubts and endless questions.

WHY were we born? Only presumptuous answers to power hungry, pleasure seekers, money hoarders, and self-made fame driven.

WHERE is our destiny after death? Knowing the reality of death, self-made speculations range from "I don't know", "I hope to a better place" or "I will recycle back to earth to start all over again."

Gwinnett County Board of Education 2022

PRAYER LIST

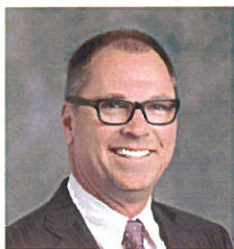

Humanism - A hypocritical pride of stealing someone else's work or ideas and passing them off as one's own. Unknowingly every subject taught in the public schools has cowardly censored any credit or acknowledge to the originator God's as the Designer and Creator of all created things and all academic subjects. From the Bible His purpose reveals why human beings are on His earth, what His intended purpose for us, and His eternal home for us all. Desperate searching questions for all children.

B-Basic **I**-Instructions **B**-Before **L**-Leaving **E**-Earth

(BIBLE - #1 best seller textbook since the begin of print in 1455 AD, but schools censored.)

Dr. Tarece Johnson, who prefers to be called Dr. Tarece, joined the School Board in January 2021. She represents all or portions of the Berkmar, Discovery, Duluth, Meadowcreek, and Norcross clusters in addition to Gwinnett School of Mathematics, Science, and Technology and Maxwell High School of Technology.
