

EPIDEMIC EVICTIONS

"OH, MY GOD."

(WHAT WAS HE UP TO?)

All in one week

God releases an eviction of 230+ deaths, and destruction to homes, family separations, and bankruptcy.

Job's historical stunning word *"Naked I came out of my mother's womb and naked shall I return. The Lord gave and the Lord takes away; blessed be the name of the Lord."* Job 1:21

In one day Job went from an extreme wealth to extreme poverty and poor health. His words could not have been spoken so accurately without his prior acknowledgement of God's sovereignty. But those powerful words didn't change his journey into destruction. But it did refine him in ways he never imaged. Through all the physical, emotional, and spiritual pain questioning God's actions on him, he finally **focused on what could not be taken away.** It was a heart-searching knowledge of the Almighty God over the heavens and earth He created.

We too, can easily be caught up trusting too much in our health, wealth, and possessions that dominates our attention more than we realize. God knew this enough to stir up the **"Milton" "Helene" hurricanes to visibility display to us the realities of our frailties, brevities, and loyalties, and focus on our eternal Almighty God as our rescuer, redeemer, provider, sustainer, equipper.**

From the victims deepest cries for survival and for a second chance, God miraculously ushered in His beautiful rays of hope, and courage through countless prayers. He immediately dispatches countless teams of hard workers sacrificing their time to restore the wreckage of devastation to 177,000 folks in Florida, Georgia, & North Carolina.

It is to this degree an ironic "hurricane parallel" in our Gwinnett Co. court system. The daily tragedy warrants of personal lawsuits, landlord/tenant dispossession, evictions, bad check citation, shoplifting citation, divorces, personal injury, traffic tickets, environmental cases, animal citations, under 17 years of age custody/deprivation/misdemeanor, felony charges, DUI, proof of insurance, domestic violence, probate losses death certificates, child support, guardianship, certificate of residency, name change, felony charges for prison sentencing.

Yet there are the amazing supervisions over birth certificates, wedding ceremonies, not to mention the executive governmental services: Police, Fire and Emergency, Corrections, Support Services, Human Resources, Information Technology Services, Public Law Library, Planning and Development, Water Resources, Transportation, Child Advocacy/Juvenile Service, and Communications.

Pray the closed doors to our jails will reopen to volunteer visits that was a once a thriving ministry years ago. **Your prayers are so appreciated** as we minister to struggling families. Weekly prayer for our leadership courthouse auditorium @ 12 noon.
