## FIRST THINGS FIRST

It is so easy to be caught up in our daily schedules that we are fogged from our very purpose why we are on earth. Equated to a merry-go-around with no destination in sight chasing our "tails" never to catch it, but preparing for eternity!

**LORD, SLOW ME DOWN TO PRAY, FOCUS, LOVE, GIVE, ENJOY MY PURPOSE WHY I AM HERE.**

(Amazing eye witness story)

I am writing to share my deeply personal and transformative experience during the recent **National Prayer Day in Gwinnett County**—a day that, through the grace of God, changed the direction of my life forever.

Before that day, I had been walking through a season of uncertainty, carrying the weight of trials that left me feeling spiritually distant and emotionally drained. Though I always knew God was near, I struggled to feel His presence and hear His voice amidst the noise of daily life and internal battles. I was searching for peace, for purpose, for a way back home to the loving hands of my Creator.

When I attended the National Prayer Day event, I didn't expect anything extraordinary. But what I found was a powerful move of God—a presence so overwhelming that I could no longer deny the pull on my heart. Surrounded by a community of believers, united in prayer and worship, I felt the walls I had built begin to crumble. The prayers spoken that day touched places in my heart I had kept hidden, and the love of God poured over me in a way I hadn't felt in years.

At that moment, I knew He never left me. I had wandered, but He had been pursuing me all along—with patience, mercy, and unshakable love. **That day was my turning point.** I surrendered my pain, my fears, and my doubts, and instead received peace, healing, and renewed purpose. God brought me back into His arms, not with judgment, but with joy.

Today, I walk with clarity, strength, and faith I had long forgotten I could have. **National Prayer Day in Gwinnett County will always mark the day of my spiritual homecoming.** I'm sharing this testimony in hopes that others who are lost or broken will know: God is still moving. He is still healing. And He is always ready to receive us when we are ready to return.

May my story be a reminder of His grace.

With gratitude and renewed faith,

*Courtney Taylor*

Dear mayor,

I personally would like to express my sincere thanks for your stability, integrity, and godliness as one of our Gwinnett County mayors. The Lord has truly blessed Gwinnett County in unmeasurable ways.

Since 2003 at the Justice and Administration Building “pray weekly by name” has been for you and all mayors, judges, commissioners, and school board members for godly discernment, patience, and ordained visions. (“courthouse” established: Tabernacle - judges & priests in the Old Testament). I thank God sincerely for His abundant peace, respect, and love throughout the building. So grateful it also radiates in all your council meetings.

You may know the struggles Fulton, Dekalb, Clayton, etc. counties crime density map and population has been through. Below is an honest scale where they stand. These figures are hard pressed for public display in any newspaper or website. Unrecognized also is our recidivism rate in Gwinnett Co. at 8.2% per population as opposed to Fulton County 74% recidivism rate. It is a daily internal sin cancer warfare manifested in criminal form that fogs up the very purpose of what they are preparing for in eternity.

For this reason is enclosed Gwinnett and Fulton County leadership list for “earnest prayer” in your council meetings by name. County leaders praying earnestly with and for neighboring leaders is the most powerful weapon on earth that “secures righteousness” for the whole county. What a miracle would be when Fulton, DeKalb, Clayton Counties etc., mayors, and churches instituted a **weekly prayer groups in their courthouses**. As an early start, we are cordially extending our invite to **all our elected Gwinnett County leadership to the National Day of Prayer Thursday May 7, 2026 in Lawrenceville.** Please mark your calendar for your council members if possible.

Our other undercurrent spiritual/mental attacks is CRT, and LGBTQ indoctrination in our public schools. Though this arena is a separate division from our mayors, “your voice” has a significant impact against the “humanistic spiritual darkness” that has erased /replaced daily Bible reading, and prayer in the schools. Over the centuries we are so grateful the Bible has always been the “spiritual compass for life” in America’s U.S. Constitution. It is still the “1# best seller book” in the whole world since print began.

Your feedback is so greatly appreciated. May the Lord truly bless you abundantly with your God-given management skills ***“for such a time as this.”***
