

GOD'S POWER

After spending a long wonderful afternoon with my granddaughter at Brisco Park, to my surprise, I discovered my keys missing out of my pocket! Frantic research we took our very step all around the park. Zero success. No where to be found. **No doubt God literally took the keys out of me pocket!** My heart truly sank in a frantic plead **"Lord, help me NOW find my keys!"**

Returning back to the car, it was also unlocked! **"Lord, what's next? I need your help NOW!"** Within one minute or less, I turned back to my car. **To my utter surprise, there was a policeman by his car looking at me with my keys in his hands!** In such a large park how in the world did he know where I was, and the very one missing my keys? Shocked beyond belief God showed me if my simple prayer could be that profoundly displayed, how much more will He do for His churches countywide who put prayer as their first priority!

IGNITED FLAMES IN KENYA'S DARKNESS MOMENTS

Dear David,

Despite all the war and a big tension at the border as a result at the border of Tanzania, our neighbor country, in their post-election rioting, which has caused Kenyan citizens to die in hundreds. However, I believe what you wrote via email that God will bring the right people during National Prayer Day today. Out of 250 pastors committed to attend only 34 honored to came for prayer. To me, it is a great success since we now have a planning team to sell the vision further for God's glory. We were so privileged to have a senior county officer from the government who joined us for this great day. He was the one leading the National Prayer Day. He promised to infuse the government to support the initiative of prayer. I praise God today for the success and the huge step!

One pastor who had come to pray got a call from his uncle that his elder brother had been shot dead by goons in the ongoing clan war.

The devil has been trying to frustrate us in regard to the National Prayer. Finally, we were able to pray for 3 hours. We heard the word of encouragement, we sung worship songs and prayed together. Thank you for your prayers. After prayer, we had light lite as planned. God bless you, sir, and I am so humbled that you took your busy schedule to pray for us specifically for this amazing anticipated day of prayer. God bless you.
Pastor Thomas Chaco

What authority in decisions do employees have without consulting approval of the CEO of the company? **"O"**

What good is a car without ignited spark plugs. **"O"**

Where is the warm comfort of your home without the pilot light igniting your furnace? **"O"**

Where are the flames of a Pentecostal revival in prayer in churches without their weekly corporate and personal intercession in prayer? **"O"**

"My house shall be called the house of prayer."

This isn't a suggestion or good idea. It is a command from our Heavenly Father in command. How scheming and cleaver the enemy carefully blocks prayer in America though with all the freedom to the max! It has been the least attended service in thousands of churches to dismantle God's power in their midst.

PLAN NOW FOR THE NATIONAL DAY OF PRAYER

MAY 7TH 2026

Dear Pastor Thomas Chacha Maroa,

Thanks for the updates. Please read all the Numbers 11:16- 17. What God did in the spirit of holiness and righteousness over all the people through intercession. The battle is not physical, but spiritual manifested in traditional demonic practices. Rebuking demonic spirits is a demanding exercise of faith. The devil cannot resist it. Involving your deacons with you in prayer is their part of support for you, as you are not "The Lone Ranger". They play a strategic role in supporting you. As mentioned in Numbers 11, those people you faced are just "exercising these traditions" in need of repentance and salvation! That's their real issue at stake. Approaching them one-on-one is often more effective.

Would be good to remind the whole congregation that darkness exists only when someone did not turn on the light switch. **"Light control darkness"**. The pure evil of darkness is a simple reaction when light is turned off.

The rising of the day sun completely destroys every inch of darkness. God allows the earth to rotate daily reminds us how beautiful light is when covered in darkness all night long. **The "Son of God" is going to rise against Kenya's cruel demonic traditions to set the children of the next generation free for holiness and purity.** Call your congregation to constant intercession as the Body of Christ. *Sincerely, David Burgher*

Dear David,

The deacons and the congregation chose ALL Friday of November and December 2025 to be the intercession days of praying for Kenya. This Kuria community specifically to repent of their sins and turn from evil activities against the young generation in Jesus's name. Keep us in your prayers, and together, we will win. God bless you and pass my warm regards to mama Nancy.

NORCROSS – GWINNETT'S DARKEST DRUG BUST NEEDING FLAMES OF PRAYER

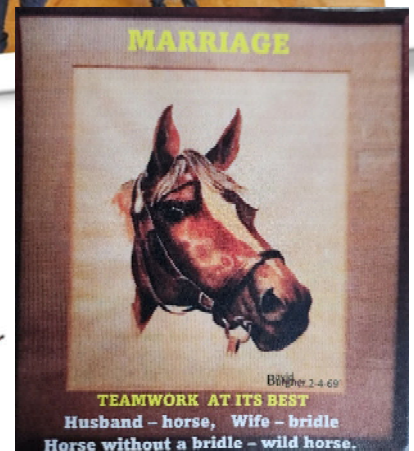

Gwinnett Co. has a strong reputation of protection against drugs. However, Marco Cueto-Rosales, 47 year old illegal immigrant from Mali Nalco, Mexico, in Norcross district has been arraigned on drug charges after federal authorities seized 325 pounds of methamphetamine from a storage unit. **Not surprising. Norcross area has been a spiritually dark section of Gwinnett attracting darkness refusing to use light to destroy it !**

The Department of Justice said, "Drug Enforcement Administration agents saw him going into the storage unit and moving items around in plastic tote bins and trash bags." A K9 unit from the Gwinnett County Police Department later detected the odor of narcotics, leading to a federal search warrant and the discovery of the methamphetamine on Oct. 10. Although the Mexican cartels stockpile and peddle their poison in our community, the quick actions of law enforcement thankfully took these deadly drugs off the streets. U.S. Attorney Theodore S. Hertzberg said. **"This operation is about more than drugs – it's about protecting families and giving our communities a chance to live free from the violence and addiction that meth brings,"** said Robert J. Murphy, Special Agent in Charge of the DEA Atlanta Division. The subsequent search, authorized by a federal warrant, uncovered nearly 1,500 rectangular packages of methamphetamine weighing 325 pounds. Marco was arraigned before U.S. Magistrate Judge Regina D. Cannon on Oct. 28 on federal charges of conspiracy to possess with the intent to distribute methamphetamine and possession with the intent to distribute methamphetamine. The case is part of Operation Take Back America, a nationwide initiative aimed at eliminating cartels and transnational criminal organizations.

However this is only the beginning for Marco, not the end. When our Gwinnett Citizen paper publish such a demonic spirit of corruption, it is so easy to dismiss the case with, **"Well they got him!"** Only to forget the open door for the Gospel as never before.

Marco was desperate for making money assuming if he could be here illegally. Selling methamphetamines too was ok. He is officially in Federal custody where God can touch him. **"To be still, and know that I am God". Please pray for Marco to encounter prison ministries to lead him to Christ. His past can be forgiven and**

WEEKLY FLAMES OF INTERCESSION AND WEDDINGS

Our weekly prayer meetings at the courthouse for their judges, mayors, school board members, and commissioners **by name** has been an impact on the entire Gwinnett Co. in righteousness reducing the crime rate countywide.

Gwinnett Co. also has free marriages registered, and certified. Unfortunately for years many couples live together conveniently neglecting the holiness in vows before God. But later they recognize God as the originator of their marriage needing to be sealed in Probate Court. As a chaplain in the court halls, **my horse picture** I painted in 1969 has been "a laugh" for so many couples. It's an opportunity to pray with couples who are making the highest, and most holy decision in their lives. So many do not attend church thus unnecessary at a church. **Yes, pastors are needed here to pray with couples. Opportunities are endless. Estimated 5,825 weddings annually ranking 48th nationally for frequency.**

Over the past 22 years at the courthouse there is a prevailing joyful peace. Gwinnett crime rate is so low, an increase in population has gone from **300,000 people to over 1 million people.** Fulton, Dekalb, Clayton are totally the opposite in leadership corruption. If the center of the wheel (courthouse) is corrupted, it will impact the whole wheel county in corruption. May God use Gwinnett Co. as a example impacting all downtown Metro Atlanta.
