

DIVINE HOLY SPIRIT WARFARE AGAINST DSTRUCTIVE COUNTERFEIT SPIRITS

GOD ORDAINED STAGE

From the beginning of time when God touched and breathed life into man. by Adam's choice there also was introduced a **"counterfeit spirit"** that separated Adam from God.

BTGM too had a beginning birthed from a hike up Stone Mountain in 1985 to the spot overlooking all of downtown Atlanta. That day in prayer opened a world I could have never dreamed possible.

Since then weekly time was spent with men in Bible studies in the Diversion, and Detention Center. From this was the follow up challenge to stay forced away from alcohol/drugs after they were released. With a box full of letters over the years their stories from the jail system resonated the power of the cross in forgiveness for a second chance with Christ their GPS. BTGM mentoring men returning back into society continues to this day.

Gwinnett County today is thriving up to over 1 million people, yet our police still manage to supply our courthouse and jails in operation. Why? There is a **"root issue"** I have yet to address who are the **literal fuel suppliers** to maintain our consistent criminal system and courthouse population. It is worldwide, not just local here.

GOD ORDAINED VISION

Getting to the heart of criminal activity all begins in frustrated homes, liberalized schools, and associations in the wrong place and company. Why and how could that be? There is the **counterfeit spirits** locked in with "demonic spirits" of alcohol and drugs to justify **"just having a good time"**. Why? Apparently their personalities aren't the greatest to be around or no answer to their purpose on earth. Thus **SELF** takes center stage as

their company to ignite their boring personality? That's when **alcohol or drugs become number one counterfeit fuel to ignite crime**. It literally changes their mindset and personality to perform a crime they would never intend to do in their sober state. Satan is the counterfeit filling that vacancy with self-centered majority of the time.

MAN'S empty spirit – SELFISH ALCOHOL = PRIDE

GOD'S Holy Spirit - SELFLESS ANOINTING = PEACE

This raises a very shocking question, **"Is it illegal to be a "fuel supplier" of alcohol or drugs that literally triggers crimes committed?"** That's our night clubs, and liquor stores throughout Atlanta. **Shocking to know they are the fuel for the county crimes, but they will never be charged as a criminal.** Sounds contradictory.

ADOPTION FOR ACTION

Adoption of dark uncharted territory is majorly unheard of or unacceptable among churches. But we also know darkness is no match against light. It is present only from the absence of light. When Jesus came on board in His world He literally transformed the traditional connections between the Jews, Sadducees, Pharisees, outcast of the most rejected. He separated the thieves, tax collectors, outcast from **what they do for who they are in chains of darkness from their own failures.**

In our generation it's no different. **Enclosed are a list of locations that are the "untouchable territories".** As hospitals, regardless of who they, the Gospel is the eternal medicine for the entire human race.

To "bridge the gap with the Gospel" where they are is an urgent need often with slow results. We need to be remind ourselves it is not about how much we know, but how much we CARE about people to go where they reside. **This introductory enclosed letter here is being delivered to all Gwinnett liquor stores, and night clubs.**

Your prayers are appreciated for these locations to open the doors and hearts building relationships of real trust in the miracle of salvation in Christ for forgiveness from sin to a pure heart.

Just yesterday near the alcohol section of Kroger two young men were making their "drink choices". It was a divine appointment to give them my **"LOVE THAT NEVER ENDS"** track introducing it as the **"most amazing eternal drink of all time."** It lead them to eternal life in Christ. Within 3 mins both young men in tears surrendered their hearts to Christ choosing eternal life not a temporary high feeling. Amazing the power of the cross in Christ!

LEGAL VS ILLEGAL

Greetings to you! (letter to all Gwinnett liquor stores, night clubs)

This is Chaplain David Burgher in the Gwinnett Co. court hall since 2003. Before then I served as a volunteer in our Gwinnett Co. Detention Center, and our Diversion Center up until 2021 when the doors closed. Since 1985 I have received a box full of letters with amazing stories of changed lives in the hearts of men or women who were once suffering from addictions to alcohol or drugs. Their destiny always became a dead-end street to Gwinnett Co. Jail. It cost them more than they ever intended to pay, lasting longer than they ever intended to last. Results: no job, homeless, or a disturbing resume' record questioning their success in the future.

Why? Alcohol or drugs is **an empty counterfeit and demonic spirit** that guarantees a long-term reputation of suffering financially, physically, mentally, emotionally, and spiritually. Partakers chose blindness never expecting these consequences! **It is documented that 40% of all crimes are directly related to alcohol or drugs.**

MAN'S empty spirit – SELFISH ALCOHOL = PRIDE
GOD'S Holy Spirit - SELFLESS ANOINTING = PEACE

This raises a huge question for all 240 Atlanta stores. and worldwide, "Is it legal or illegal to be a "public fuel supplier" of alcohol or drugs that literally triggers concentrated crime?" **God's answer is illegal. Yet somehow it is "too acceptable publicly to keep it all legal".** God gives daily all liquor store owners an ultimatum. Continue business as usual, or reverse to bless their customers with healthy products that fuel them to bless their families and friends. Why? **See the big picture! 8 billion people have one solitary purpose: Preparing for eternity to meet Jesus, the CEO of the Universe, face to face in eternity ready in faith or not ready in total shame.**

This choice today is in your hands.
